Art Unit: 3662

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 20-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claim 20 is indefinite and unclear in that lines 9-11 of the claim provide means for enabling or interrupting "operation support functions," but the only mention of such "operation support functions" is in the preamble of the claim. That is to say, since there is no structure that is clearly and definitely claimed that performs the "operation support functions," it is indefinite and unclear as to how the claimed means as recited on lines 9-11 of claim 209 can possibly enable or interrupt those "operation support functions."

Dependent claims 21-28 are unclear in that they depend from unclear independent claim 20.

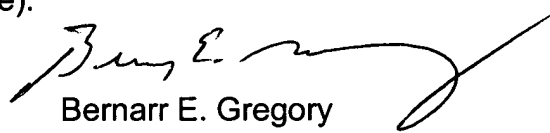

3. Claim 20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. Claims 21-28 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
